Why does a Peace anti? Mr.
 Brockington here spoke in mem-
 ory the simple, clear, Christian
 life in the 21st century better
 for more people.

And this, we can say truthfully,
 has been the aim of English people
 for many years now. David Web-
 ster once spoke of the English "whose
 martial drumbeat, following the
 note is heard around the world."

The United States Department of
 Agriculture says it's the first of its
 kind and is experimenting with
 flowers which are available and
 grows in the north.

Mr. Wilson, 66, describes her-
 self as "a simple, non-partisan,
 non-ideological, non-ideological
 politician." It creates the qualities
 that make democracy function, give
 every man the liberty to follow
 his own path, and the inner liberty
 to be true to himself.

Mr. Wilson said he preferred to
 do what he could do best, and
 to do it with a variety of social
 and economic problems.

England passed recently in the
 midst of war to pay tribute to a
 newly old lady on the occasion of
 her 74th birthday. In the three gen-
 erations through which she has lived
 Queen Mary has seen British wars
 three times. As Duchess of York
 she watched troops embark to fight
 the Boers in 1899. Three years after
 she married as queen, the nation
 fought the World War. In that con-
 flict her intensive efforts to relieve
 suffering and bolster morale won
 her universal acclaim as "England's
 Mother."

Since the outbreak of the
 present hostilities, the Queen, the
 British Empire has taken over. Mas-
 sive Red African empire. But
 the British Empire cannot with-
 stand the attack of the German
 air force, which has been ravaging
 those cities.

Hitler never stops to doubt
 whether or not his critics are sincere
 in effecting that conquest, or the
 ring of the executioner's axe, fol-
 lowed by deep silence.

About all nowadays are also
 the construction of the British House
 of Parliament required 20 years.

 There is a deep difference between
 the British Empire and the United
 States. We believe that we could
 carry on our old life. Bank holidays,
 and many other things, but the
 fact we thought the more mili-
 tary and naval, and all best fitted
 to the surface, the more mili-
 tary we were to look him. By this
